variants. Should applicant traverse on the ground that the species are not patentably distinct,

applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

examiner finds one of the inventions anticipated by the prior art, the evidence or admission may

be used in a rejection under 35 U.S.C. 103(a) of the other invention.

8-18 [1] II, [2] III, [3] the process as claimed can be used to make a materially different product such as a coat of cloth or fabric

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for

examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required

III

for Group I or II is not required for Group III, restriction for examination purposes as indicated is

proper.

A telephone call was made to Attorney Arnold Turk on August 9, 2000 to request an oral

election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to U.K. Rajguru whose telephone number is (703) 308-3224. The

examiner can normally be reached on Monday - Friday from 9:30 am to 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Jim Seidleck, can be reached on (703) 308-2462. The fax phone number for the

organization where this application or proceeding is assigned is (703) 305-3599.
